**ABOUT THE STUDY**

I am being asked to decide if I want to be in this research study about my family tree. This study will look at cells from my mouth and who is in my family.

If I say yes, I will have to do certain things, like:

- tell about who is in my family. I know my parent can help me with this.
- swish mouthwash in my mouth and spit it into a cup. The mouthwash might make my mouth tingle. Instead of swishing mouthwash a nurse may rub a cotton ball on the inside of my cheek in my mouth.

I can choose about being in this study or not. If I decide not to be in the study, no one will be mad at me.

Also, if I later decide I don't want to be in this study any longer, I know I can stop at any time. All I have to do is tell someone I don't want to be in the study any more.

**ASSENT**

This research study has been explained to me and I agree to be in this study.
